DETAILED ACTION

Allowable Subject Matter

Claims 1-25, 28-37, and 40-45 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a system and method for managing access to secured locations. Each independent claim interactively manages access to a secured location by using the combination of an entry control device, the location and the passwords corresponding to the different levels of access within the databases associated with the secured location. The applied prior art, Hyatt (US 5,319,362) discloses a conventional security access system that fails to anticipate or render the claimed limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
